CONSTRUCTION MANAGEMENT DIVISION CENTRAL SURVEY GROUP

Rutgers University
New Brunswick, New Jersey

December 31, 2007

The Port Authority of New York and New Jersey is a bi-state agency that manages and maintains the bridges, tunnels, bus terminals, airports, PATH commuter railroad and seaports in the greater New York/New Jersey metropolitan region. *

The engineering responsibilities for the various Port Authority facilities are managed by the Engineering Department, an organization with over 800 professionals engaged in the planning, design, maintenance and construction of these facilities. Within the Engineering Department, the Central Survey Group, a subdivision of the Construction Management Division, is responsible for all the surveying related activities relative to engineering projects.

The activities of the Central Survey Group are various and include such surveying applications as:

<i>Topographic</i>	<i>Horizontal and Vertical Control</i>	<i>CAD/GIS</i>
<i>Boundary</i>	<i>Aerial Mapping Hydrographic</i>	<i>Structural Deformation</i>
<i>Construction</i>	<i>Geotechnical</i>	<i>Subsurface Utility Mapping</i>
<i>And Laser Scanning</i>		

The Port Authority is aggressively seeking candidates for an entry-level trainee position in the Central Survey Group. This position will become available in May-June 2008 for a graduate with an accredited four-year degree in Surveying, Geomatics or Civil Engineering with an emphasis of concentration in surveying. It is the intention of the Port Authority to mentor the successful candidate for eventual professional and management position within the Survey Group.

Therefore, we would be pleased if you would make known to your students the availability of this position. We will be accepting résumés **until Jan. 15, 2008** at **jkozo@panynj.gov** Personal interviews will be conducted during the winter break period. Please feel free to contact me at 201 595-4839 with any questions.

Yours truly,
James J. Kozo III, PLS
